

MD/DCRC Database Abridged Version

District of Columbia

7 May 2009

MD/DCRC Database Status & Decision Definitions

Decision/Status
S&R

Definition

Records from the committee's baseline document: Stewart & Robbins, The Birds of Maryland and the District of Columbia, 1958.

DCRC

Records from the (defunct) DC Records Committee baseline

Accepted

Reports accepted by the committee.

Accepted-Group

Reports accepted only as to a species group or genus--where all other species of this group are reviewable at the observed location.

Not Accepted

Reports not accepted by the committee.

Circulating

Reports currently in circulation and under review by the committee.

Recirculate

Reports where no committee decision was reached during the latest circulation. The report will be circulated again.

Ready

Reports ready for circulation. All relevant reports, or a sufficient number of reports, have been submitted.

Reviewable

Reports of a species/location that meets the committee's Review List criteria. Additional observer data is believed to be outstanding.

USNM

Reports of specimens in the US Museum of Natural History that have not otherwise been published. Specimens are to be verified and reviewed by the committee.

Unreviewable

Reports with insufficient descriptive identification details to permit a review by the committee. Typical for many older published sight records.

Research

Apparently unpublished reports - investigation in process to determine if documentation exists.

Retracted

Published reports - subsequently retracted by the observer(s).
